

THE JUDY MILLER STANDARD

Yup. David Shuster was watching the same Scooter Libby trial I was.

There are worse things for Obama than if John McCain becomes indelibly connected with Judy's mindless war-mongering.

Update: Here's McCain's op-ed, now posted at NY Post. Shorter McCain: "According to political appointees (but not the non-partisan GAO), the Iraqis have achieved 15 of 18 benchmarks. But somehow, military self-sufficiency was not one of those benchmarks, so I get to stay here regardless of what Maliki has to say about it."
