

CARL LEVIN ON TORTURE INVESTIGATION

As I reported earlier, when Senator Reid spoke at Progressive Media Summit, he stated that he supported investigations of BushCo wrong-doing, even stating he was increasing the budget for such investigations. He specifically mentioned that Senator Levin would be doing some such investigation.

Here's Senator Levin's response. It sounds like Levin's investigation is primarily his SASC investigation on torture.

In good news, though, Levin's committee should be releasing the full report in short order.
