

ARE YOUR MEMBERS OF CONGRESS SUPPORTING AN INVESTIGATION INTO BUSH CRIMES?

As many of you have noted, at least 62% of Americans support some investigation into Bush Administration crimes (whether a criminal investigation or a truth commission). Do your members of Congress agree with the majority of Americans who refuse to ignore the past?

Here's a list of those members of Congress who have voiced some support for an investigation. If your members of Congress aren't on here, call them (1-877-851-6437, 1-800-828-0498, or 1-800-614-2803). Ask if they support one of the efforts to investigate the Bush Administration. If they're not sure, urge them to do so. Please leave a comment so we can track what they say.
