

# GEITHNER: THERE IS NO PLAN B

Gresham Barrett (R-SC) asked Tim Geithner "the \$64 trillion question"—basically, what is Plan B?

Geithner's response? Don't worry. It'll work.

That wasn't acceptable when President Bush had no Plan B in Iraq, and it's not acceptable here.

In his response to Bill Posey, Bernanke did better. But the war images don't give me a lot of confidence.
