

# **APPARENTLY MISSING BIBLICAL IRONY, NUCLEAR POWER ISRAEL COMPLAINS ABOUT SLINGSHOT ATTACKS**

As Siun reported earlier, last night some Israeli commandos attacked some humanitarian ships bringing supplies to Gaza. A number of civilians were killed.

Since then, the IDF has released a series of videos, captioned in English, apparently attempting to spin their own raid as an attack on the poor defenseless Israelis. I found this one—in which a latter-day Israeli Goliath complains about the slingshots civilians used to defend themselves—particularly ironic.
