

WORKING THREAD: JOHN YOO'S EMAILS

At Rosalind's request, I'm putting up this working thread on the emails that OLC just turned over to CREW.

There's nothing all that exciting there because this search did not include "paper or electronic documents of Mr. Yoo available elsewhere in the Department." Like on the classified servers.

I'm actually on strike until I get a non-Scribd copy (you can download a zipped file—thanks to MadDog—here). Why do NGOs insist on putting stuff on the increasingly unworkable Scribd?

But if you happen to LIKE Scribd, here are the emails.
