

TIMELINE OF KEY EVENTS IN DOJ IG CARTER PAGE REPORT

As part of my deep dive into the DOJ IG Report on the Carter Page FISA, I've tried to capture the key events in it, which are discussed in iterative fashion in the report so hard to understand. Note, too, that the much-touted 17 problems with the renewal applications include details that only were problematic on the last application; that doesn't excuse the errors but it obscures what FBI might have done when.
