

THE FISA FIX AND OBAMA'S PROFILE IN COURAGE LEADERSHIP MOMENT

The desperate push on FISA by the Bush Administration, complicit and subservient Republican Congressional leaders, and their telco partners is about to explode onto the forefront again. We are either a nation of laws that protects citizens and their right to seek redress for being wronged by their government and it's agents, or we are a nation of self serving men like George Bush and Dick Cheney that can do, and get away with, whatever illegal and immoral acts they desire. Barack Obama could put an end to this today if he wanted. It is time for a Profile In Courage.
